CITY OF CAPE GIRARDEAU SIGN PERMIT APPLICATION INFORMATION SHEET

Please read this information sheet in its entirety.

Development Services recently launched digital plan review. To take advantage of this service, email your completed application form to eplans@cityofcape.org; include a list of consultants who need view access to this project (name, company and email address). You will receive email notification to upload the supporting documentation. No paper submittal is required, but one set of plans will need to be printed after approval for the jobsite. For more information, visit www.cityofcape.org/eplans. There is no additional fee for digital plan review.

If you choose to submit by paper, submit the following items to the Development Services Department for review. If you choose to submit digitally, only one digital version of each item is required. Vector-based PDFs are preferred:

1. A completed and signed permit application.
2. Two site plans for monument and pole signs.
3. Two complete sets of detailed construction drawings, including elevations and sections, and electrical information where required.
4. Two sets of structural calculations, including lateral force calculations, where required.

The site plan should include, but is not limited to, the following list of items:

1. The site plan shall be drawn in accordance with an accurate boundary line survey.
2. Drawn to scale with the scale indicated on the plans.
3. A North arrow.
4. Show the building setbacks and locations of all easements.
5. The location of all existing structures on the lot.
6. The street name(s) and location(s).
7. The location of existing and proposed signs, fences and walls.

These plans shall completely detail compliance with the City of Cape Girardeau Ordinance No. 4702 dated June 1, 2015, adopting the 2015 International Building Codes and 2014 National Electric Code in addition to other applicable City of Cape Girardeau Ordinances.

Plans requiring a design professional shall be sealed, signed and dated by a Missouri registered design professional according to the Rules of the Missouri Board of Architects, Professional Engineers, and Land Surveyor's Section 4 CSR 30-3.060.

The submittal is subject to a minimum of five (5) business days for review. Plan Review will not begin before the completed commercial permit application form is submitted.

(Note: A separate electrical permit may be required.)
