

HAUNTED HALL of HORROR

COVID GUIDELINES

- All guests and staff will be required to adhere to local guidelines regarding the use of facial coverings.
- Our staff is staying home if they aren't feeling well, and we ask that you do the same. There will be a limited number of participants allowed inside the A. C. Brase Arena at any given time.
- Please stay only with your group. We are taking steps to avoid the conga lines, so please help us by steering clear of strangers.
- We will be emphasizing maximum spacing between groups. Even with these precautions, we may still need your help. If you can see the group in front of you, slow down. If you can see the group behind you, speed up! There may be staff inside monitoring this, so please pay attention to their directions.
- Our staff and volunteers will not touch you, so please keep your hands to yourself.
- Buying tickets in advance is encouraged. You can start buying tickets on Monday, October 5 at the A. C. Brase Arena or the Osage Centre during normal business hours.
- All staff and volunteers will be temperature screened each night.
- Social distancing will be executed where possible.
- Touch points will be sanitized regularly (ex. handrails) by staff.
- Hand sanitizer stations will be located throughout the Haunted Hall of Horror at the flashlight/usher locations.
- Please follow the instructions of our staff members at all times.
