

# Security Camera Registration Form

The CGPD is partnering with the community to create a registry of security cameras in our city. The program is completely optional and the department will not have access to any cameras without the consent of the owner. This will simply be an easy reference for our officers if they are in need of video for an incident.

If you would like to register your property's security cameras, please complete the form below.

Together, we can help make Cape Girardeau the safest community possible.
